MORE ABOUT THE MORGAN 14

Several trails lead up the hill, where you'll find multiple areas that flatten out into treeless plateaus—ideal locations for a deer blind or tree stand. There is visible deer sign throughout the property, including a large, well-defined bedding area, along with numerous rubs and scrapes. The land features a wide variety of hardwoods and native grasses.

There is also a small water hole that was likely used as a livestock water source in the past. Big Lick Branch Creek runs along the road and crosses directly to the left of the property entrance. Creek runoff is not an issue.

Completely surrounded by mature forest, this property offers an ideal setup for hunting or those seeking privacy.
